**Subject:** **Keeping the Cove one district**

I'm appalled at the gerrymandering to keep 2 council men sitting on this council by splitting the Cove into 2 separate districts

The Cove was the original Cathedral City. It has a historic significance (almost erased everywhere else in this city...). And this also reenforces the upper Cove and lower Cove separation... not a good thing....

It deserves to be included as a unit in a district to address concerns that affect to and to give the neighborhood a sense of unity and identity.

Please vote to have the Cove as part of one district.

Thanks you,
