Subject: District Map

Dear Mayor Henry and Cathedral City Council Members,

Just wanted my two cents to be added concerning Districting.

I think the best looking district map is **ORANGE by (NDC)**.

It holds most neighborhoods together.

The cove looks to stay whole which most residents living around there want according to the Nextdoor Polls.

With **Orange by (NDC)**, most dividing lines go right down natural major thoroughfares, like Date Palm, Landau, and Cathedral Canyon (there could be a small adjustment made for the lower portion of Cathedral Canyon in dist. 4)... as well as Dinah Shore, parts of Ramon and **all the residential portion of Vista Chino**.

Orange gets my vote; no one can point a finger because it is a NDC map.

Please choose wisely, without any political motivations, keeping in mind how the residents would like these districts to appear. Residents really do not like to have their neighborhoods carved up. They have no problem with other neighborhoods grouped with them.

Do the best you can as always. We are counting on you.

Please place this email in the public record corresponding to the appropriate agenda issue for 8/9/2017.

Thank you,
Bethany Ballard

PS - Sorry, could not find MPT Pettis' city email address. Please forward.
