Dear Mr. Kaplan:

Unfortunately, I will be out of the country when the Council meets to whittle down the number of maps, or else I would state my opinion at the meeting. Instead, I will have to give it you. Cathedral City is a long narrow municipality going from north to south. I believe the best representation is to have concise districts that are somewhat compact. I believe the two best maps that fulfil this, are either NDC Orange, or MHagedorn1. I would strongly suggest that these be in the final three that the Council picks. Thank you for listening.
