

Dear Charlie and Tracey:

I wanted to enter the following letter into public record that I have already sent to each individual council member. Thank you!

Dear Council:

I wrote a letter along with resident Kendra Culbertson a couple months ago to council expressing during the Districting process would you please make every attempt to keep the Cove neighborhood in just one district rather dividing it. I once again want to ask you to please honor not only my wishes but the wishes of so many in the Cove that feel the same. I don't want to look across my street, Bel Air Dr. and see my neighbors, Barb and Mike in a separate district. Your job is to unify residents, not to divide them.

This whole argument of dual representation for a neighborhood is contrary to the whole spirit of why districts are formed. Council should do what is right for every neighborhood in the city, as you already do, hence no need for two council members in one neighborhood.

I realize not all neighborhoods can be kept whole but most can and please honor the wishes of those who want their neighborhood to remain in one district.

I particularly like the Demographer's Orange map and also Planning Commissioner Hagedon's map.

Sincerely,

Randy Winbigler

Cathedral City
